SUMMARY

Computer Science and MERN Stack Developer with practical experience building and deploying responsive web applications and scalable backend architectures. Engineered modular platforms utilizing React.js, Next.js, and Node.js while handling optimized state management. Adept at database designing, secure JWT authentication modeling, and integrating cloud technologies to streamline application deployment workflows.

SKILLS

Programming Languages: JavaScript, Java, TypeScript

Primary Skills: React.js, Node.js, Express.js, MongoDB, Redux, Tailwind CSS, Bootstrap 5, Material UI, HTML, CSS, MERN, REST APIs, Git, GitHub

Secondary Skills: Next.js, Docker, CI/CD, AWS,

EXPERIENCE

Academor

Aug 2023 – Sep 2023

Web Development Intern

Remote

- Engineered responsive full-stack web modules using React.js and Node.js, boosting rendering speeds by 25%.
- Developed 10+ reusable UI components and structured backend API routes to scale data throughput by 40%.

PROJECTS

SocialMediaSite – Modern Social Blog Platform

[View Repository](#)

Next.js 15 • React 19 • Redux Toolkit • Bootstrap 5 • Node.js • Express 5 • MongoDB • Multer • Bcrypt

- Built a modular LinkedIn-style network handling custom profile bios, education tracking, professional histories, and mutual connection requests.
- Structured secure session states using bcrypt hashing alongside a Multer media management engine for profile pictures and post media.
- Formulated specialized admin utility features allowing rapid automated seeding and database cleansing during test cycles.

foodDeliverySite – food Delivery Site Platform

[View Repository](#)

Typescript • React 19 • Redux Toolkit • Tailwind • Node.js • Express 5 • MongoDB • Multer • Bcrypt

- Developed a full-stack Food Delivery Platform using the MERN stack, delivering a complete online food ordering experience..
- Designed and implemented RESTful APIs for authentication, food management, cart operations, and Implemented JWT-based authentication and role-based authorization to secure user accounts...
- Integrated live location tracking using browser geolocation and map services, enabling users to share their current location for accurate delivery.

CERTIFICATIONS

- MERN Stack Development – New Delhi, India
- Full Stack Web Development Professional – Academor
- MERN Stack Advanced Training

[View Certificate](#)

[View Certificate](#)

[View Certificate](#)

TECHNICAL ACHIEVEMENTS

- Maintained a consistent problem-solving streak on LeetCode, effectively optimizing complex algorithm run-times.
- Logged over 180+ hours of structured, advanced full-stack development across engineering tracks.
- Formulated optimized codebase workflows for personal deployments, reducing cloud asset allocation overheads.

EDUCATION

B.Tech in Computer Science & Engineering

Expected 2027

Shri Ram Murti Smarak College of Engineering & Technology, Bareilly

Senior Secondary Education (UP Board)

2022

Bharat Inter College, Bhojipura, Bareilly, UP
