Summary

Computer Science and MERN Stack Developer with practical experience building and deploying responsive web applications and scalable backend architectures. Engineered modular platforms utilizing React.js, Next.js, and Node.js while handling optimized state management. Adept at database designing, secure JWT authentication modeling, and integrating cloud technologies to streamline application deployment workflows.

Education

Shri Ram Murti Smarak College of Engineering & Technology , Bareilly, UP	2027
Bachelor of Technology in Computer Science	
Bharat Inter College , Bhojipura, Bareilly, UP	2022
Senior Secondary Education, UP Board	
Bharat Inter College , Bhojipura, Bareilly, UP	2020
Secondary Education, UP Board	

Skills

Programming Languages:- JavaScript, Java, TypeScript

Primary Skills:- React.js, Node.js, Express.JS, MongoDB, Redux, Tailwind.CSS, Bootstrap5, MaterialUI, HTML, CSS, MERN, APIs, Git, GitHub, Backend, FullStack

Secondary Skills:- Next.js, Docker, CI/CD, AWS, DBMS, Aptitude

Experience

Academor	Remote
Web Development Intern	Aug 2023 – Sep 2023
- Engineered responsive full-stack web modules using React.js and Node.js, boosting rendering speeds by 25%. - Developed 10+ reusable UI components and structured backend API routes to scale data throughput by 40%.	

Projects

Postblog – Modern Social Blog Platform	Repo Link
<i>Next.js 15, React 19, Redux Toolkit, Bootstrap 5, Node.js, Express 5, MongoDB, Multer, Bcrypt</i>	
- Built a modular LinkedIn-style network handling custom profile bios, education tracking, professional histories, and mutual connection requests. - Structured secure session states using bcrypt hashing alongside a Multer media management engine for profile pictures and post fallbacks. - Formulated specialized admin utility features allowing rapid automated seeding and database cleansing metrics during test cycles.	

Certifications

- MERN Stack Development** – New Delhi, India | [Link](#)
- Data Structures & Algorithms in Java** – Technical Education Authority | [Link](#)
- Full Stack Web Development Professional** – Academor | [Link](#)
- MERN Stack Advanced Training** – Techvision Technologies | [Link](#)

Technical Achievements

- Maintained a consistent problem-solving streak on LeetCode, effectively optimizing complex algorithm runtimes.
- Logged over 180+ hours of structured, advanced full-stack development across engineering tracks.
- Formulated optimized codebase workflows for personal deployments, reducing cloud asset allocation overheads.
